

# DON'T BE FAKED OUT

knock-off pills sold online or on the street  
contain the deadly substance  
**fentanyl**

**Every overdose death is preventable.**

Encourage your friends not to use 'oxys', 'percs',  
'blues' or 'M30' pills. Pills not obtained from a pharmacy  
are fake and contain fentanyl,  
which can be deadly even in small doses.
